

Elite Performance™ Windshield Washer Fluid – A New standard in Washer Performance
Elite Performance Summer™ has been specially formulated for warmer months when maximum freeze protection is not required. By removing this freeze protection component, Elite Performance Summer is better suited for warmer temperatures and a better value.

DIRECTIONS: Add contents of bottle directly to windshield washer reservoir. Do not dilute.

Spring, Summer, Fall: To remove dirt and road grime, apply liberally to windshield. Baked on residue may require other means of cleaning. For added cleaning action, use Elite Performance BugOff™ with powerful cleaning agents to cut through bug splatter, tree sap and bird droppings.

Winter and Temperatures below 32°F: Elite Performance Summer™ is not intended for use in sub-freezing temperatures. To prevent damage to wash lines and safeguard against windshield re-freeze, replace summer washer fluid with a freeze protection formulation; or add a windshield washer booster to reservoir. For added freeze protection, use Elite Performance Ice Melt to remove frost and protect against reservoir freeze-up to -35°F.

CONTAINS: WATER (CAS #7732-18-5), METHYL ALCOHOL (CAS #67-56-1) OR ISOPROPANOL (CAS #67-63-0), SURFACTANT, DYE. (METHYL ALCOHOL CONTENT IS LESS THAN 4%).

Avoid contact with eyes. Do not swallow. Use only in well-ventilated area. Keep away from heat or open flame. Do not store in open or unlabeled containers. Store and transport in an upright position and ensure that cap is in place and tightened.

FIRST AID: If swallowed: Give 1 or 2 glasses of water. Call physician, hospital emergency room, or Poison Control Center immediately for instructions to induce vomiting. When medical advice is not available, induce vomiting with finger or back of spoon. Get prompt medical attention. In case of contact with eyes, flush thoroughly with water for 15 minutes. Get prompt medical attention.

Produced by:
Elite®

Elite Performance™ Windshield Washer Fluid combines superior cleaning performance with certified anti-freeze protection to -20°F providing unmatched year-round washer performance.

Elite Performance NonTox™ RV Antifreeze & Winterizer is ideal for all types of potable water plumbing systems and provides certified burst protection to -50°F to prevent damage to pipe lines and safeguard against rust and corrosion.

Elite Performance BugOff™ Washer Cleaner is specially formulated with powerful cleaning agents to cut through bug splatter, bird droppings, tree sap and road grime to restore vision and clean to a streak-free shine.

Elite Performance IceMelt™ Washer De-Icer will protect against reservoir freeze-up to -35°F, remove light ice and frost and guard against impaired vision due to windshield re-freeze.

CAUTION:
 KEEP OUT OF
 REACH OF CHILDREN.
