

Vinegar is Nature's Natural Cleaner. Not For Food Consumption ⓓ This is not an edible product.

DIRECTIONS FOR USE

Austin's Cleaning Vinegar can be used for a great variety of applications and clean-up problems.

Common Directions: Dilute with water, the cleaning vinegar with a 50/50 mix to get a tough cleansing solution. Or dilute ½ cup with one gallon of water for normal use. Apply with a clean towel or sponge to work on surfaces. If possible completely soak some items with the solution, allowing a few minutes for the product to work.

Kitchen: Use our product to clean and deodorize counter tops, sinks, drains, refrigerators, stoves, garbage disposals and cans.

Bathroom: Use this natural cleaner for scrubbing sinks, showers, bathtubs and toilets.

Laundry: Apply the cleaning solution to stains on fabrics, except acetate fibers. Let the solution soak into the stain and then launder as usual.

Appliances: Our product can be used to freshen and remove stains from coffee makers, de-humidifiers, tea kettles, food choppers and processors. Follow the manufacturer's instructions or clean as we describe above.

Windows and Glass: Fill an empty sprayer bottle with the normal use solution to spray and clean windows and glass objects.

Never mix this vinegar product with any other caustic chemicals such as bleach, ammonia, toilet bowl cleaners, tub and tile cleaners. Doing so will release hazardous gases. Avoid contact with eyes and prolonged contact with skin. Do not take internally. Avoid the inhalation of vapors. Use in an open area with adequate air flow.

FIRST AID: EYES ⓓ Remove contacts. Flush with water for 10-15 minutes until irritation is relieved. **SKIN ⓓ** Thoroughly wash with water.
