

Instructions

DOSAGE:

Standard Treatment: Weekly, add 1 oz of Chitosan Clarifier for every 10,000 gallons of pool water. No premixing required.

Cloudy Water Treatment: For dirty or cloudy water, double or triple the weekly dosage. No premixing required.

DIRECTIONS FOR USE:

Use as directed. **Extremely slippery if spilled.** To keep pool water clear, treat with Chitosan Clarifier once a week at the standard dosage. For residential pools that get heavy use or commercial pools, treat the water twice a week at double or triple the dosage.

1. Make sure filter is clean and equipment is working properly.
2. Add the calculated amount of Chitosan Clarifier across the pool water surface. Run filter system continuously for at least six hours after application.
